

## **FACULTY POSITION IN CHEMICAL BIOLOGY**

**Department of Chemistry and the Carolina Center for Genome Sciences  
University of North Carolina at Chapel Hill**

The Department of Chemistry and the Carolina Center for Genome Sciences at the University of North Carolina at Chapel Hill invite applications for a tenure-track faculty position at the Assistant Professor level. Areas of interest include chemical biology and chemical genomics. However, all areas of chemistry, broadly defined, will be considered. Successful candidates are expected to develop an exceptional research program and to teach at both the graduate and undergraduate levels. Research space will be allocated in the new Genome Sciences Building, which will contain faculty from the Departments of Biology, Chemistry, Statistics and Operations Research, and Computer Science.

Applications will only be accepted electronically. Applicants should submit a single PDF containing (in this order) a cover letter, curriculum vita, research plan, and teaching statement, and up to three reprints/preprints to [jobs.unc.edu/2501931](http://jobs.unc.edu/2501931). Applicants should also arrange to have three letters of recommendation sent to [chemsearch@unc.edu](mailto:chemsearch@unc.edu). Review of applications will begin December 1, 2011, and will continue until the position is filled.

Questions should be directed to: Chair, Faculty Search Committee, Department of Chemistry, University of North Carolina at Chapel Hill, Chapel Hill, NC 27599-3290, [chemsearch@unc.edu](mailto:chemsearch@unc.edu).

***UNC is an EO/AA Employer, and strongly encourages applications from women and minorities.***
