

SCRIPPS FELLOWS POSITIONS AVAILABLE

**Applicants in all areas of
Chemistry and Biology will be considered!**

The bicoastal Scripps Research Institute (TSRI) is conducting a search for Scripps Fellows to be located on either the La Jolla, CA or Jupiter, FL campus.

Scripps Fellow applicants are scientists of exceptional promise and creativity who have recently completed their Ph.D. training, or with limited postdoctoral experience (< 1 year).

Scripps Fellows will be housed in the laboratory of a designated faculty sponsor. The Fellows will be provided with 100% salary support and funds for two co-workers for a period of three years. The Scripps Fellows will have Principal Investigator status, and have privileges to apply for external grants,

Successful Scripps Fellows will be expected to emerge as nationally competitive for faculty positions, and can be considered for faculty positions at Scripps.

QUALIFICATIONS

Candidates must have recently received a Ph.D., M.D., or equivalent in a relevant discipline, and have an outstanding record of graduate research that demonstrates originality in addressing significant questions.

A bicoastal search committee with representatives across disciplines will review the applications.
