**Interested in a career in the business side of science?**

**Dr. Jenny Rooke will give an overview of business careers for scientists from her own experience.**

Dr. Jenny Rooke drives innovation in the life sciences through investing and business building around brilliant scientists and engineers with novel technologies. Her investing experience includes roles at the Bill & Melinda Gates Foundation and at Fidelity Biosciences, a healthcare venture capital firm. Dr. Rooke held multiple executive roles at U.S. Genomics, a venture-backed biotech start-up advancing single molecule detection technologies for diagnostics, biodefense, and research tools. Previously, Dr. Rooke was a management consultant with McKinsey & Co., where she advised leading pharmaceutical and biotech companies on business strategy. Dr. Rooke earned her PhD in genetics from Yale University and her BS in physics from Georgia Tech.

**Wednesday, 10/9/2013, 5:30PM**  
**Mission Bay Byers Hall 212**
